YOUR PATH FROM CAMPUS TO

BUSINESS ANALYST INTERNSHIP

Numbers that *move the business*

Why analytics matters at Myntra.

Myntra is making eCommerce happen in India. Myntra's vision is to make analytics part of its overarching competitive strategy, and push it up to decision makers at every level. A Business/Data Analyst is expected to grasp the underlying data requirements of these teams and develop reports/analyses that add value to them. Do you have the passion to analyse data and impact the business materially through what you observe?

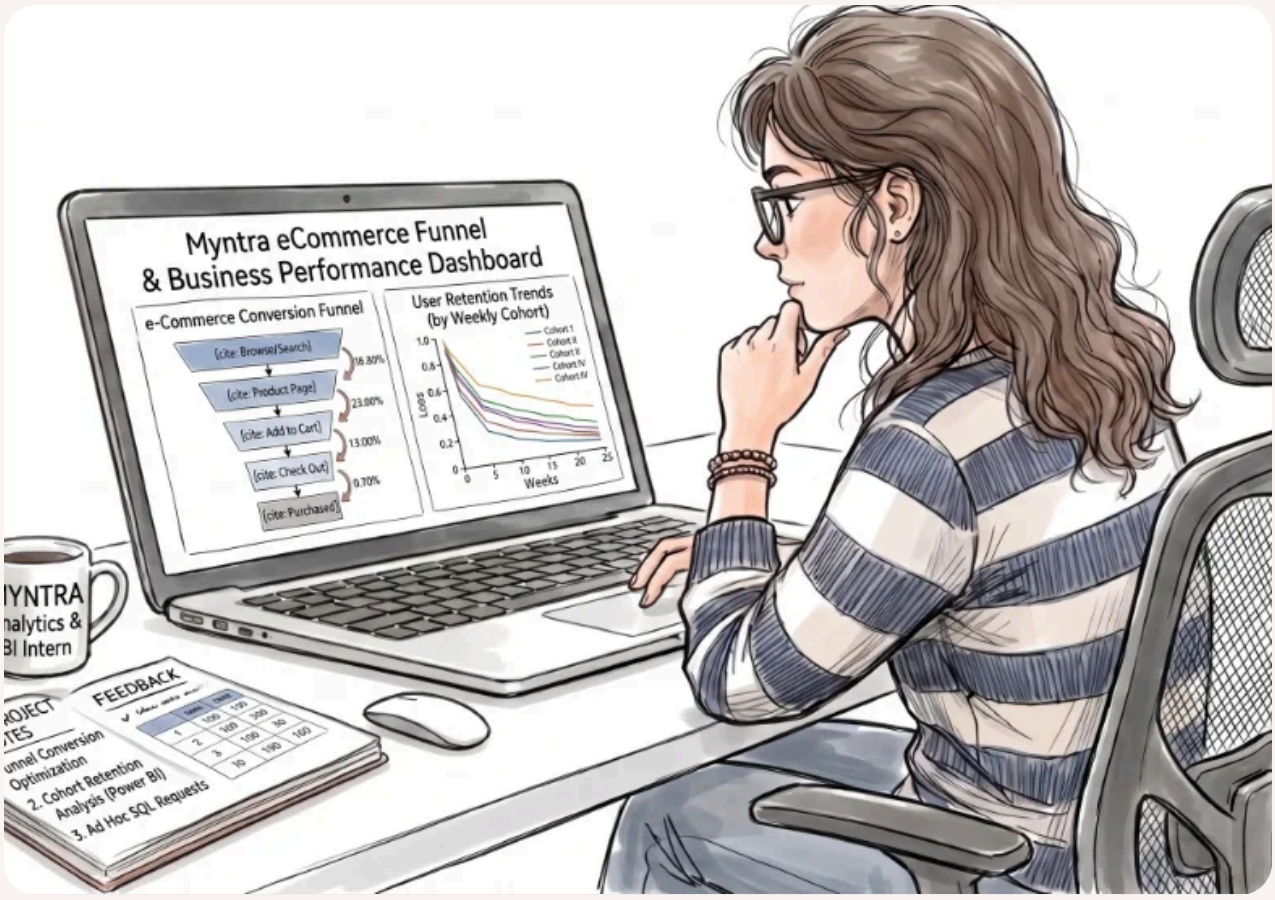

At Myntra, high focus on Impact and Ownership allows for freedom for each to experiment and innovate. Pride is when you see the impact of what you have created. The ability to see what your contribution does to the business is a rare experience, add to that the fact that the impact of it is felt by your friends and family in India — the experience is extremely gratifying.

ELIGIBLE BATCH
B.Tech · 2027

Roles & *responsibilities*

- Solves open-ended problems with structured, productized analytics frameworks.
- Devises deep, data-backed solutions to business and product problems.
- Runs root-cause and deep-dive analysis on product issues.
- Maintains the reporting system and presents insights in weekly forums.
- Builds dashboards and templates for operational & management reporting.
- Extracts data for ad hoc business requests and analysis.
- Tracks and evaluates metrics to understand product performance.
- Manages multiple projects at once in a fast-moving environment.
- Uses Python to automate reporting and streamline processes.

Desired *skills*

- Engineering degree (B.Tech/BE), with strong analytical background.
- Grounding in Statistics — hypothesis testing, A/B testing, regressions.
- Strong SQL, plus R or Python for data manipulation.
- Exposure to ecommerce funnels and retention analysis.
- Ability to connect product and business metrics.
- Bonus: business modelling and financial metrics knowledge.
- Quick learner, comfortable in a dynamic environment.
- Team player across multiple disciplines.
- Skilled at building intuitive dashboards on Power BI.

What's *in it* for you

Impact & Ownership

Freedom to experiment, and see the impact of what you create.

Mentorship

Work directly alongside experienced Business Analysts.

Real Impact

Felt by your friends and family across India.

We can't wait to meet you @**Myntra**

The extras you'll actually love

A few more things that make the workday better.

Relocation Assistance

Travel tickets for the intern at the time of joining, and upon completion of the internship.

Cafeteria

Enjoy a variety of healthy and delicious food options at our cafeteria, along with the convenience of your Pluxee meal allowance.

Dhyan Kaksa

Take a mindful break in our Dhyan Kaksa, a dedicated meditation space to relax, recharge and refocus during the workday.

Nap Pods

Need a quick recharge? Our nap pods offer a quiet and comfortable space for short restorative breaks.

Bicycle Breaks

Take a break from work and enjoy a ride on the office premises.

EV Charging Points

On-site EV charging point in the basement for employees.

Sports & Gym

Sometimes, the best way to reset is to step away for a bit. That's why you'll find a gym, gaming arcade, snooker, and massage chairs.

Did you know? We are India's first corporate house to have a pickleball court.

Mobility

Hop on our daily shuttles and get to work without the commute hassle, at minimal cost.
